It's the remarkable capacity of blending the immense knowledge acquired throughout four generations into a glass of wine.

*A family, four generations
and a new concept of wine.*

What is GENERACIÓN?

GENERACIÓN is breaking free from rules and questioning all we were taught. It's the remarkable capacity of blending the immense knowledge acquired throughout four generations into a glass of wine.

It's that seductive and vertigo feeling when you're about to do something extraordinary.

Why now?

The time has come, we are ready.

Paths have been left and trails have been taken to fall and rise. In constant search to improve, to evolve and take a step forward in winemaking. It is the moment to share the result of a four generation legacy made looking into the future. GENERACIÓN, the greatest version of ourselves.

Why is GENERACIÓN different?

To challenge all assumptions is our attitude; never settle is our way of being. Always question everything, throw down walls and start again, this is who we are in the vineyard and in the winery. Constant evolution, passion and "custom made" methodologies to reach an objective: success.

Who is it for?

GENERACIÓN is for those who want to travel in time and space, for those who can look straight in the eye, for those who know that evolution is a risk yet the only way forward, for those who are not afraid to experience it all.

*Defying fear and ignoring those that called you crazy, because we were not born to follow.
Take the risk and become invincible.*

Look, listen and feel. Forget about what we were taught and re invent an entirely new game when you listen to what the land has to say. It's about tearing down the norm, defying fear and ignoring those that called you crazy, because we were not born to follow. In your heart you know that if you take the risk you are invincible.

Experiment the challenge of breaking free, the curiosity of creating, the beginning of a revolution in winemaking in a glass of wine.

GENERACIÓN 20 / GARNACHA

Rise up to adversity. Fight fearless through battles untold and caress the scars that reveal the will to persevere. The origin of a new GENERACIÓN.

Look back in time, discover the beginning of everything from a place where you no longer question yourself. Understand adversity as part of life.

All decisions were taken, not for flawless plans but for survival, a commitment to life, unaware of a great future to come.

VINEYARD

Old vines, witnesses of our past, with roots that grow deep into the land as if searching for our origin. Almost a century of loyalty to the harvest.
